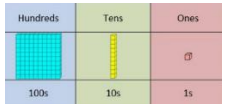
Numeracy and Mathematics

Numeracy

Pupils will learn to identify, read, write and order numbers and continue to explore the place value of each digit.



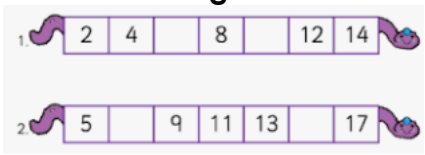
Pupils will estimate a given number of objects and utilise different strategies to count with increasing accuracy and check their estimates.

Mathematics

Miss Davey will be teaching pupils how to measure length using standard units such as CM's and non-standard units such as cubes, hand spans and straws.

Also, pupil will explore properties of 2D and 3D shapes and create symmetrical images.

Problem solving



As children become familiar with the vocabulary associated with number they will be able to idenitfy missing numbers in different counting patterns and give their reasoning for their answers.

Have you got ideas? Can you help?

Please use seesaw to share any ideas or suggestions to go alongside planned learning.

IDL & Health and Well Being

This session, Miss Davey will be teaching technology skills and this term will focus on developing pupil's independence logging on and off laptops using usernames and passwords. Miss Davey and pupils will be exploring the theme of 'Friendships' in HWB lessons.

Mrs Cheesman will be teaching all topic work this session and in term 1 we will be exploring 'Our Beautiful Island' gaining a sense of our location within Scotland. Pupils will learn to care for the seashore and the woodlands in and around Tong.

What are we learning this term?

Literacy and English

Reading

Pupils will be using new phonics resources this term to improve their spelling, reading and writing. This new resource is called RWI and begins each day with a Toy frog called 'Fred' teaching the children sounds and words needed for reading the text of the day.

Read Write Inc. Phonics

Writing

P1 will gain confidence in forming some lower-case letters and begin to 'have a go' at writing simple sentences.

All pupils will write recounts and new verses of a song/poem using the original structure as a template.

Listening and talking

Pupils will continue to use 'Talk for Writing' games and strategies to share their news verbally and become attentive listeners.

They will create and act out text maps to learn new songs and poems before creating their own versions of these texts.

Termly information

We have PE on a Monday and Wednesday afternoon. Children will need a PE kit including suitable footwear.	Please ensure your child has a jacket and spare socks/pants/ trousers in their school bags.	Home work will be given out on a Monday and should be returned by Friday.	Seesaw will be used to share children's achievements and learning.	Maths week Scotland including family learning event (details to follow) 21/9/26 RME week 5/10/26
